

Makinex Mixing Station MS-100

Fast mix, easy pour, mixes 100kg in 3 mins

The Makinex MS-100 is an efficient mixing solution for mixing self-leveling cements, compounds & epoxies, allowing quick mixing & pouring.

Challenge on the Job:

I need a Mixing Station that is:

- Easy to use
- Doesn't create a lot of mess
- Does the job quicker

Features & Benefits:

- Mixes up to 100kg hands free in only 3 minutes
- Removable dust splash and bucket to keep the job clean
- Lightweight with easy tilt for precision when pouring

Positive Results:

- It saves up to 8 hours of labour
- Dismantles and transports easily
- Less waste

Testimonials:

"With the Makinex Mixing Station an 8 hour job was finished the in 2 ½ hours with one less staff member than I would usually use. The Makinex Mixing Station is a definite goer for this industry." - John McKenzie, Ideal Floor Topping, Strathfield NSW
