

# QL-080 COMPACT CRANE PACKAGES

**QuickLIFT**<sup>®</sup>  
COMPACT CRANES

## The perfect fit for utes and light trucks

The ultra-compact, lightweight Quicklift QL-080 cranes have been designed to be an efficient and safe replacement for manual lifting, while boosting productivity through the capacity to lift up to 700kg!

**SAFER** with load-hold valve protection and operated by radio remote so you can operate at a distance, out of harms way

**SMARTER** the cost of down-time from back injury often exceeds the cost of a compact crane

**STRONG** 700kg max lift, ultra-light crane weight

**COMPACT** only takes up a 310mm x 595mm deck footprint

**HYDRAULIC** slew, lift and extension

**VERSATILITY** Quicklift can be utilised in any industry

**HARD-WEARING** Teflon wearing pads reduce friction on hydraulic boom extensions, increasing the life span of the crane structure

**NEW ZEALAND** designed and tested, backed by a 3 year warranty with fitting agents nationwide

## Crane package includes:

Hydraulic slew and lift, hydraulic extension(s), manual extension, overload relief on lifting cylinder.

## Installation kit includes:

Base plate, outrigger socket, outrigger with manual wind down leg, bolt-down kit, fully enclosed power pack fitted with isolator switch (12/ 24V) and oil tank, radio controlled cordless single speed remote.

# THE ULTIMATE UTILITY UPGRADE
